

NISHA S

Aspiring Software Developer | Java Programmer | Data Analyst

CONTACT : 7395846953 | ADDRESS : Thalaiyur,Salem | MAIL: nishasubramani2021@gmail.com

Linkedin : <https://www.linkedin.com/in/nisha-s-3a82142a3/> Github : <https://github.com/nisha0911-gif>

CAREER OBJECTIVE

Aspiring Software Developer and Electrical & Electronics Engineering student with strong foundations in Java, SQL, and Data Structures & Algorithms. Experienced in developing IoT, embedded systems, and AI-based solutions through academic projects and hackathons. Passionate about building scalable software applications, solving real-world problems, and continuously learning emerging technologies.

EDUCATION

KNOWLEDGE INSTITUTE OF TECHNOLOGY

B.E. Electrical and Electronics Engineering | 2023 – 2027 | Current CGPA : 8.67

HSC (12TH STANDARD)

Girls Government Higher Secondary School | 2021 - 2023 | Percentage : 86%

TECHNICAL SKILLS

Programming Languages: Java, C, SQL

Web Technologies: HTML5, CSS3, JavaScript, Frontend Development

Database: MySQL,PostgreSQL

Tools & Platforms: Git, GitHub, VS Code, Eclipse, Postman, Vercel, LeetCode

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS)

Technologies: Data Analytics, AI API Integration, Internet of Things (IoT), Embedded Systems

AREA OF INTEREST

Software Development | Full Stack Development | Java Development

Web Development | Problem Solving

ACADEMIC PROJECTS

IoT-Enabled Wireless Power Transmission for Electric Vehicles

- Developed an IoT-based wireless EV charging system with real-time monitoring and efficient wireless power transfer for electric vehicles.

Wearable Blood Blockage Detection in Early Stage

- Designed an IoT-based wearable device to monitor health data continuously and support early blood blockage detection using sensor technology.

Digital Approval System | React.js, Node.js, Express.js

- Developed a role-based digital approval workflow system with secure authentication, approval tracking, and an intuitive dashboard for efficient document management.

Personal AI Assistant | HTML, CSS, JavaScript, AI API

- Built an AI-powered virtual assistant that provides real-time conversational responses using AI API integration through a responsive and user-friendly interface.

Professional Portfolio Website | HTML, CSS, JavaScript

- Developed a responsive portfolio website showcasing projects, technical skills, internships, and achievements with a modern UI, smooth animations, and mobile-friendly design.
-

INTERNSHIPS & CERTIFICATIONS

Robotics Internship – Kodacy Educational Institute

- Gained hands-on experience in designing and programming robotic systems.

Python Internship – YBI Foundation

- Developed practical knowledge in Python programming and problem-solving concepts.

BSNL Internship / Industrial Visit

- Learned about telecommunications operations and network management systems.

Certification – NPTEL

- Completed the course “Introduction to Industry 4.0”.
-

ACHIEVEMENTS / AWARDS

- Third Place** – 24-Hour Non stop Women’s Hackathon 2024(AICTE Idea Lab & iStart in Association with startup TN) - Static Wireless Power Transmission for Electric Vehicle
- Second Place** - 24-Hour Non stop Hackathon(HACK IT ON '25) - IOT Enabled Wireless Power Transmission for Electric Vehicle .
